

ADDITIONAL ITEMS NOT LISTED / PHOTOGRAPHED

Please note, to keep the Coin Cellar website up-to-date takes a surprisingly large amount of time and energy, as well as motivation and discipline. To mark individual coins as “Under Offer” or “Sold” takes long enough, but to take pictures and optimize them to fit the website, plus write attributions, descriptions, grading and prices is all time prohibitive. Nevertheless, we’ve received complements in abundance to know you like the style, format and overall presentation of the site.

To help us bridge the gap before everything is ready for the main website, we are introducing these brief “no pictures” documents. They may be simple and there could be errors but if something might interest you, then drop us a line and we’ll try to accommodate your enquiry. We try to avoid heavily damaged, weak coins so these coins are typically decent grade VF and better.
